

Make me Laugh & I will buy you a beer!

A piano man was hired to play background music for a movie. When it was completed he asked when and where he could see the picture. The producer sheepishly confessed that it was actually a porno film and it was due out in a month.

A month later, the musician went to a local porno theatre to see the film he had written the music for. With his collar up and dark glasses on, he took a seat in the back row, next to a couple who also seemed to be in disguise.

The movie was even more raunchy than he had feared, featuring group sex, S/M and even several scenes that included a German Shepherd!

After a while, the embarrassed pianist turned to the couple and said, "I'm only here to listen to the music – I composed and played it."

"Oh Yeah?" replied the man. "We're just here to see our dog's acting debut."

This couple had been dating for about six months, but the guy had been afraid to make any sexual advances because of his tiny organ.

Finally one night, he gets up his courage, and takes her to a secluded spot in his car.

While they are kissing, he opens his zipper and guides her hand onto his penis.

"No thanks," the girl says. "You know I don't smoke!"

A man and his wife are returning from vacation, while on vacation they decided to buy themselves some pets, he bought a snake while the woman got a skunk.

As they are passing through the airport they notice a sign which says "NO ANIMALS WILL BE ALLOWED THROUGH QUARANTINE"

Slightly distressed, the woman turns to her husband and asks what they should do. After thinking hard for 5 minutes the man come up with a plan: "What I'll do is tie the snake around my waist and try to pretend that it's a snake skin belt."

"Yes" the woman replies "but what about the skunk?"

"I don't know, you'll just have to hide it up your skirt"

"But what about the smell?" the woman asks.

To which the man replies, "Look, if it dies it dies!"

One day a woman is driving into Angleton and slams on the brakes as a coyote runs across the road in front of her. Just as she regains her wits and gets ready to proceed, a goat-roper runs right in front of her and catches the coyote by the hind legs and starts screwing it.

"Oh my God!" she exclaims and drives into town to find the local law. She sees the local sheriff's car parked in front of a bar.

"It figures," she says as she storms inside.

The first thing she notices is an old, old man with a long white beard sitting in the corner jacking-off. She runs up to the sheriff who's sitting at the bar with a drink.

"What kind of sick town are you running here? I drive into town and almost run over some weird cowboy dude screwing a coyote.... and then ...I come in here ...and see this old man in the corner jacking-off right in public!"

"Well, ma'am," the sheriff slowly replies, "you can't expect him to catch a coyote at his age, can ya?"

A woman sought the advice of a sex therapist, confiding that she found it increasingly difficult to find a man who could satisfy her, and that it was very wearisome getting in and out of all these short term relationships.

"Isn't there some way to judge the size of a man's equipment from the outside?" she asked earnestly.

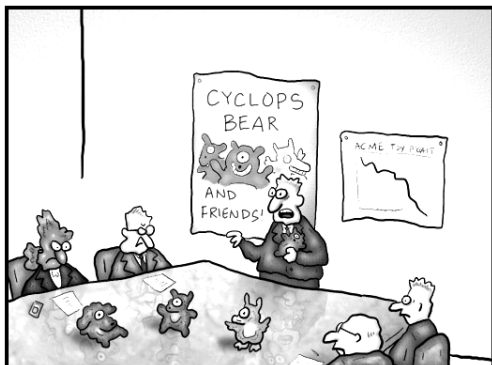

"The only foolproof way, is by the size of his feet," counseled the therapist.

So the woman went to a local bar and proceeded to drink whiskey. Then a little short cowboy came in wearing boots, the biggest she had ever seen. She struck up a conversation:

"What size boots are you wearing?"

"These are size 18, ma'am"

She took him out to dinner, wined and dined him, and then took him back to her apartment for an evening of wild sex. When the man woke up the next morning, the woman had already gone but, by the bedside table was a \$100 bill and a note that read, "Here, take this money and go out and buy a pair of boots that fit!"

"Ok - we cut our costs in plastic eyes in half, but there's been a little problem with declining sales."

"Careful - this might be one of those leaping lizards."
